How to Create New Program

1  Click on Movie

2  Click on Add New Movie

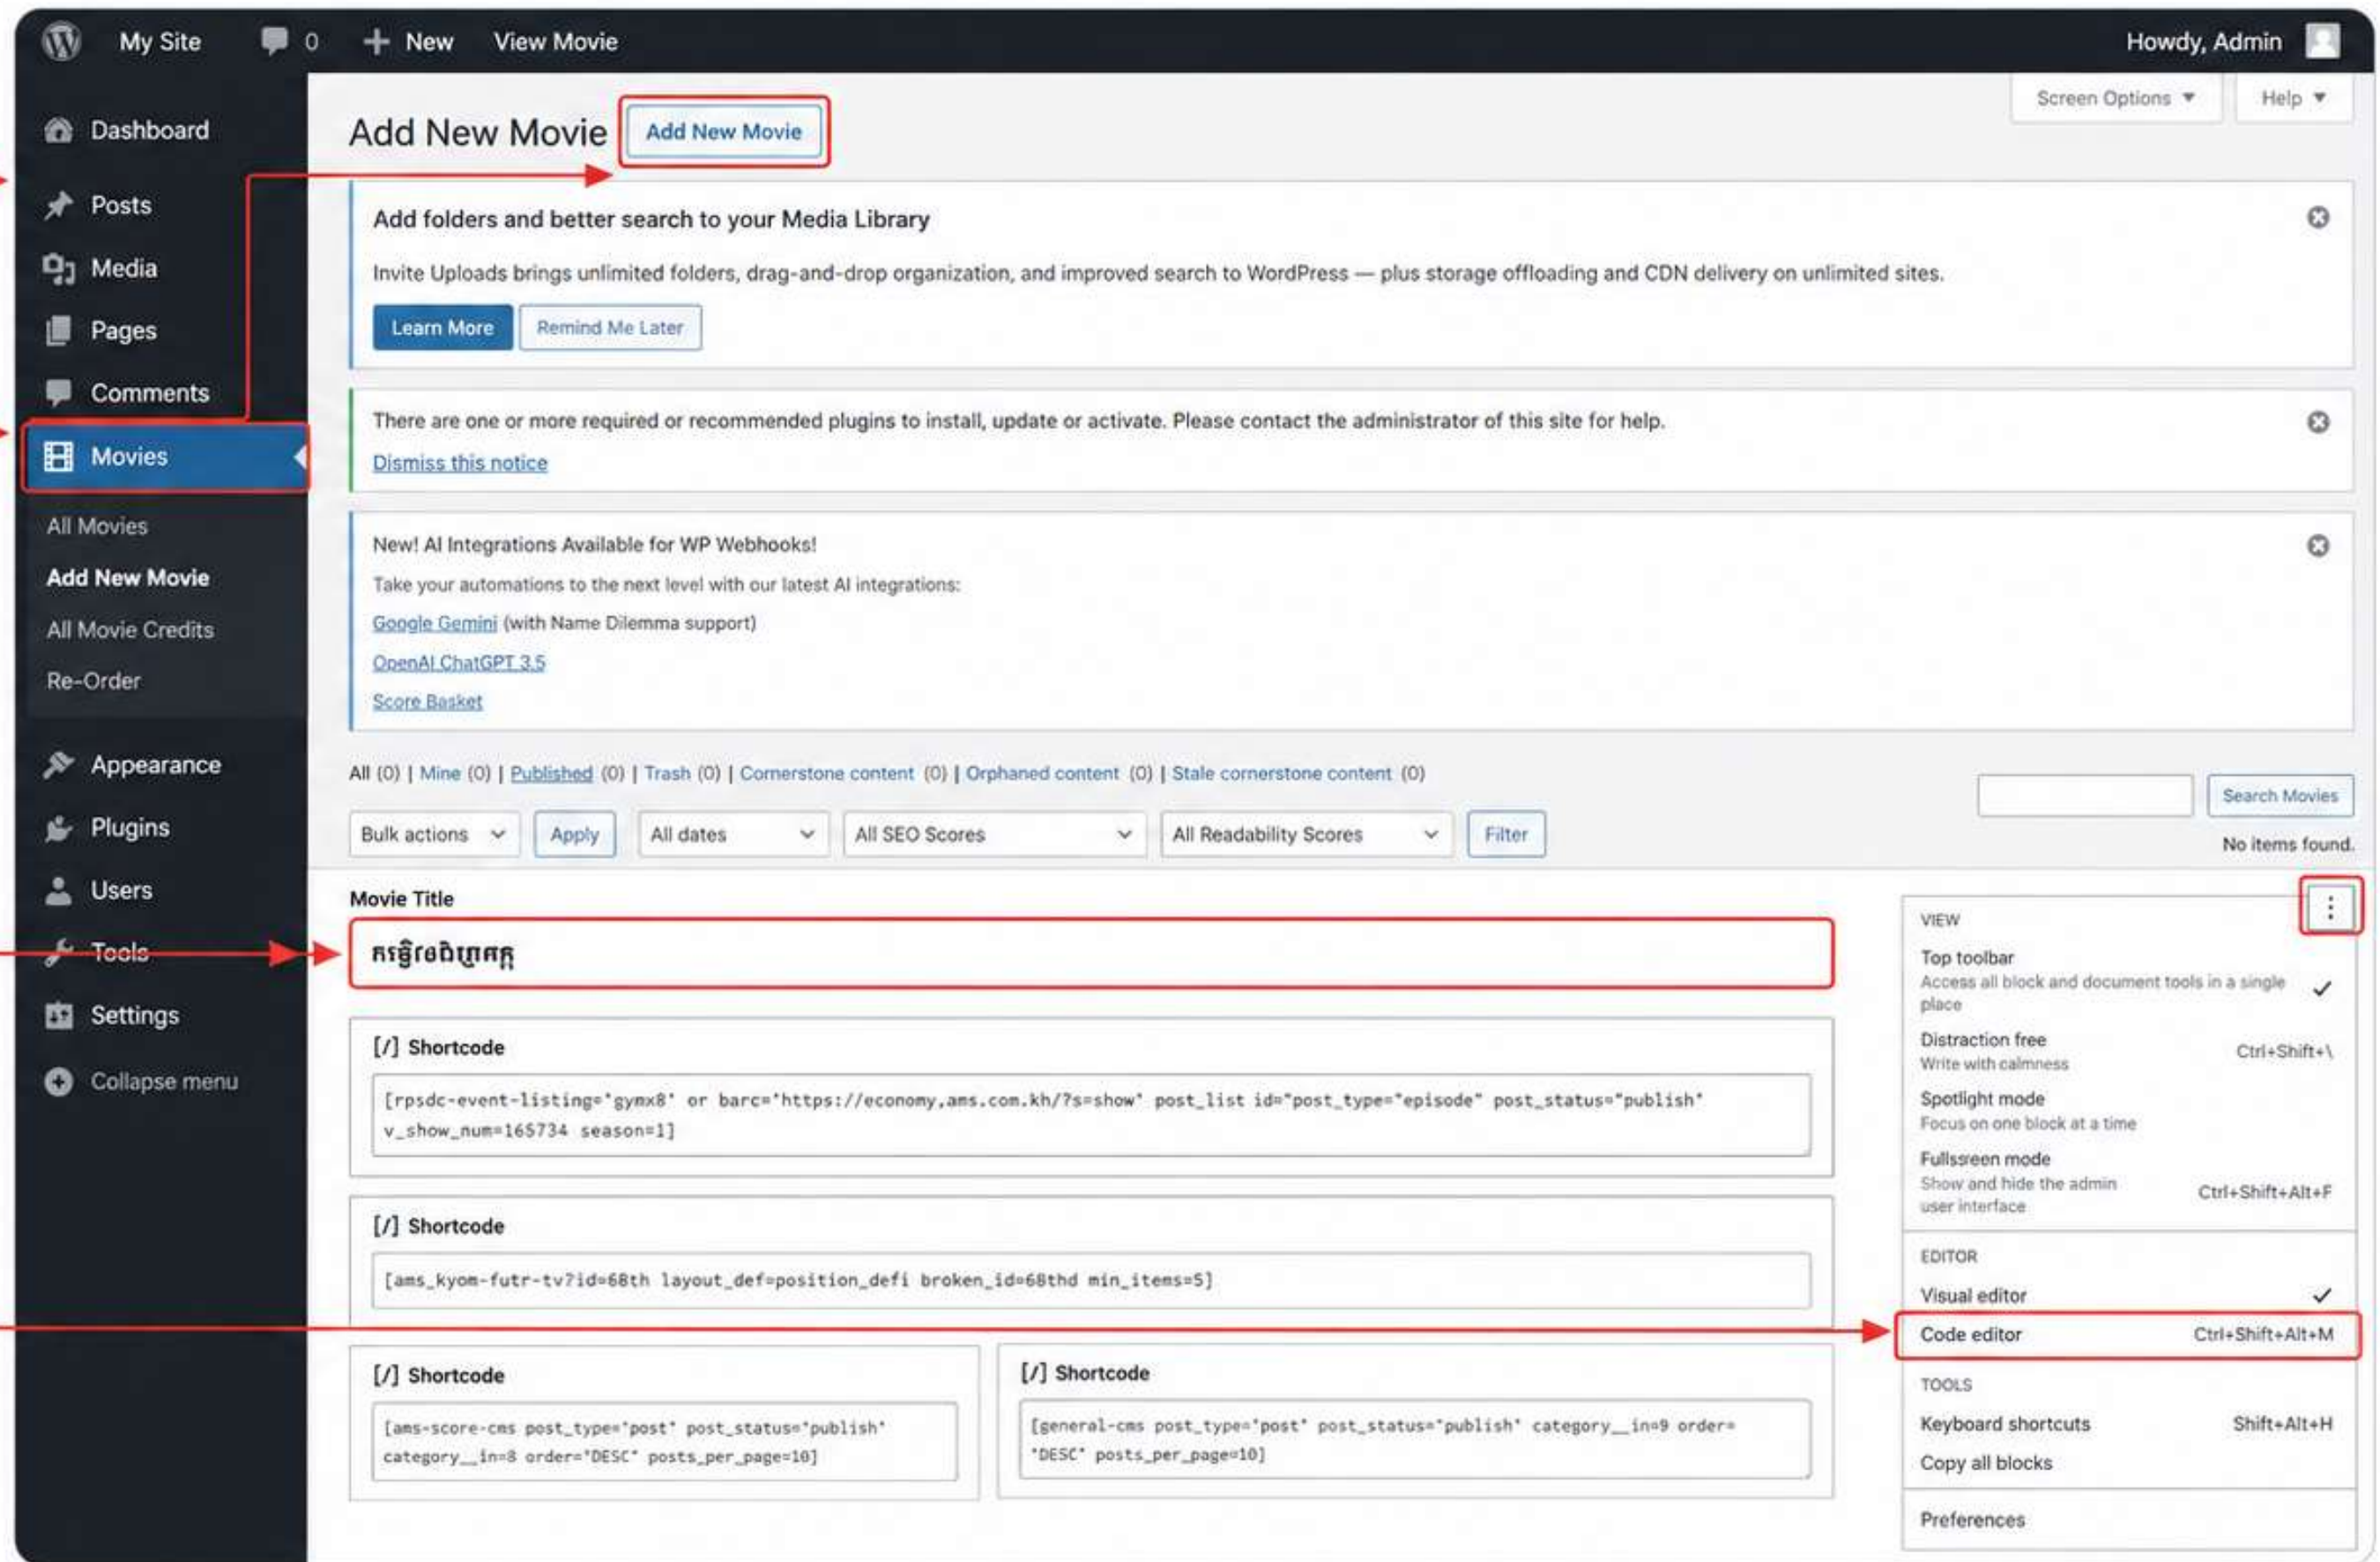

3  Enter Program Title

4  Open Code Editor and copy the old code from the previous program

Tip:

Copy the shortcode/code from the previous program and paste it into the code editor.

The screenshot shows the WordPress 'Add New Movie' interface. The left sidebar contains a menu with items: Dashboard, Posts, Media, Pages, Comments, Movies (highlighted), All Movies, Add New Movie, All Movie Credits, Re-Order, Appearance, Plugins, Users, Tools, Settings, and Collapse menu. The main content area is titled 'Add New Movie' and includes a sub-header 'Add folders and better search to your Media Library'. Below this, there are several notices and a section for 'New! AI Integrations Available for WP Webhooks!'. The 'Movie Title' field is filled with 'កម្មវិធីប្រកួត' (Competition Program). Below the title, there are three sections for shortcodes, each containing a code block. The first shortcode is: `[rpsdc-event-listing='gymx8' or barc='https://economy.ams.com.kh/?s=show' post_list id='post_type='episode' post_status='publish' v_show_num=165734 season=1]`. The second shortcode is: `[ams_kyom-futr-tv?id=68th layout_def=position_defi broken_id=68thd min_items=5]`. The third shortcode is: `[ams-score-cms post_type='post' post_status='publish' category__in=8 order='DESC' posts_per_page=10]`. The fourth shortcode is: `[general-cms post_type='post' post_status='publish' category__in=9 order='DESC' posts_per_page=10]`. The right sidebar contains a 'VIEW' section with a dropdown menu (highlighted) and a list of settings: Top toolbar (checked), Distraction free (Ctrl+Shift+\\), Spotlight mode, Fullscreen mode (Ctrl+Shift+Alt+F), EDITOR (Visual editor checked, Code editor Ctrl+Shift+Alt+M), TOOLS (Keyboard shortcuts Shift+Alt+H, Copy all blocks), and Preferences.

QUICK SUMMARY

1

PUT TITLE PROGRAM

Enter or update the program title.

2

REPLACE WEB PROFILE

Click "Replace" to upload a new web profile image.

3

PUT PROGRAM DESCRIPTION

Write or update the program description to inform viewers.

TIPS

Always update the title, image, and description to keep your program page professional and engaging.

1 Locate Permalink

Go to the editor and scroll down to the "Custom Permalinks" section.

2 Update the Permalink

Edit the URL slug at the end of the permalink to match our new program.

Example:

From: ~~/movie/old-program~~

To: /movie/financial-talk

3 Save Changes

Click "Save" to apply your changes.

The screenshot shows the AMS editor interface. At the top, there's a header with the AMS logo and navigation icons. Below the header, the 'Custom Permalinks' section is visible, showing the current permalink: `https://economy.ams.com.kh/movie/financial-talk`. A red box highlights the slug `movie/financial-talk`, and a red '1' is next to the permalink text. Below this, the 'Yoast SEO Premium' section is visible, showing the 'SEO' tab selected. The Yoast interface includes a 'Focus keyphrase' field and a 'Get related keyphrases' button. On the right side of the editor, there's a sidebar with a 'Movie' block preview and a 'Yoast SEO' section. The 'Movie' block shows a thumbnail and a title in Khmer. The 'Yoast SEO' section shows the status as 'Published', the publish date as 'May 11 9:22 am', the slug as `កម្ពុជាកិច្ចការ`, the author as 'Pheat Sophat', the template as 'Default template', and the discussion as 'Open'. A 'Move to trash' button is also visible in the sidebar.

BEST PRACTICES

- ✓ Use short, clear, and relevant slugs.
- ✓ Avoid changing permalinks after publishing (may affect SEO).
- ✓ Always click "Save" to ensure changes are applied.

TIP: A clean and correct permalink helps improve SEO and makes your content easier to find.

1
